Eastern Technology Staffing

In-House Technical Staff Evaluations

Solutions specialists focused on adding value to partner organizations through solutions based consulting.

Eastern Technology World Wide Staffing Inc. is a global team of product experts, recruiters, strategists, developers, marketers and technologists. We partner with our clients to build and deliver a variety of solutions based on their needs.

Our combined staff brings technical expertise in all areas of General IT support as well as application specific knowledge to assist and complement personnel.

Our recruiters are backed by our technical staff on every presentation, and are guided by the same experienced technicians in gaining an understanding of your requirements.

Every member of our technical staff has advanced degrees in computer science or engineering and a minimum of ten years software/hardware experience. Whether you are hiring staff or seeking end-to-end solutions our team makes a commitment to meeting and exceeding client expectations.

Our core offerings include:

- Strategic Technology and Innovation (State & Local Gov.)
- Product Design & Development (BIG Data, Analytics, & AI)
- Systems Integration (Siebel, SAP, XMLA, R&D & Test)
- Business Development (Product development & Design)
- Staffing Support (Direct Placement & Subcontracting)
